

Community Care Physicians Network Acknowledgement Form EverMed Direct Primary Care – Preferred Network

CCPN is excited to announce a new contract effective 9/1/17 to be the preferred network for EverMed DPC. All primary care providers and pediatricians are included in this contract with strong referral impact for non-primary care CCPN members.

EverMed DPC contracts with employer groups to provide primary care homes for employees and their families. EverMed is working with an enrollment life pool of over 200,000 patient lives throughout North Carolina this enrollment season.

Why the CCPN preferred contract with EverMed DPC:

- Healthy flow of patients via employer health plans, age cap at 64 years of age
- Revenue positive
 - o Avg. EverMed patient delivers \$720/year revenue v. \$450/year Fee for Service patient
 - o Avg. RVU is 28% higher for EverMed DPC patient versus most commercial payers
- Consistent Monthly Clinic Revenue
- Low Administration with no billing for included services
- Limited menu of included services for the fee schedule, all other services performed as billed to the employer wrap plan as customary
- Highly efficient care model enjoyed by the practice and the patient

While all CCPN Primary Care practices can now accept EverMed DPC patients, each practice can manage your own flow and capacity. Please indicate your *current* level capacity for EverMed patients:

Our Practice is ready to accept as many new patients as we can get right now.

Our Practice is able to accept up to _____ number of new patients right now.

- If signing up multiple practice locations under single signature, please list each location and the number of new patients per practice location on the following page. A Clinic Information Form will need to be completed for each location.

Our Practice does not have capacity for new patients at this time, but we are happy to convert patients already with our practice if their employers adopt EverMed DPC plans.

Our Practice does not have capacity and cannot accept patients at this time.
